## EDUCATION

---

- **PMAS Arid Agricultural University , Rawalpindi** 2021 - 2025 (expected)  
*Bachelors in Software Engineering*
- **Islamabad College For Boys, G-6/3, Islamabad** 2020 - 2021  
*Intermediate*

## WORK EXPERIENCE

---

- **128 Technology** JULY,2023 - AUG,2023  
*Front End Web Developer Intern* Islamabad
  - Developed and launched "Chalo Parho Pakistan," a responsive website connecting IT students with opportunities, using HTML, CSS, JavaScript, and Bootstrap. Completed the project in 2 months, enhancing students' skills and employability.
  - Prioritized and problem-solved several tasks concurrently with minimum supervision.
  - Designed intuitive user interfaces using HTML, CSS, and JavaScript frameworks for a better overall user experience.
- **Zekab** AUG,2022 - SEP,2022  
*Front End Web Developer Intern* Islamabad
  - As a Front-End Web Development Intern at Zekab, I spearheaded the creation of a Litmos.com clone, utilizing HTML, CSS, Bootstrap, and JavaScript. Responsibilities included UI design and development, JavaScript implementation for interactivity, and ensuring responsive design across devices. Achieved successful project completion within set timelines, enhancing user experience through modern design principles and responsive techniques. Additionally, contributed custom HTML and JavaScript to existing websites.

## PERSONAL PROJECTS

---

- **Website** 6th semester  
*In my university web development course, I created a user-friendly website showcasing the beauty of nature.*
  - Technologies :HTML,CSS,JAVASCRIPT,BOOTSTRAP,PHP
  - I created an engaging and user-friendly website focused on nature, highlighting various trees, animals, and natural elements. Its visually appealing and intuitive design allows users to easily explore and appreciate the beauty of the natural world. My work received excellent grades, and my teacher was impressed, promoting it as an exemplary project.
- **Sports Management System** 5th Semester  
*I developed a sports management system in my university's modern programming course.*
  - Technologies: JAVA
  - In my university's modern programming course, I created a sports management system. Despite it being my first time using Java for the interface, I enjoyed the process and successfully completed the project and promotion from my teacher.
